Fiction: Emma Jane's Aeroplane

Non Fiction: Flying Machines

Poetry: Reciting simple poem: Learning to fly by Kenn Nesbit

Writing

Take off around the world with Emma Jane and her friends! We will look at rhyming patterns in the story, make predictions...and carry on her adventures in our story writing.

In our Non fiction text we will explore caption, labels and how information is presented. Learning about flight through the ages will lead us to the future...what spacecraft will you design and write about? Don't forget your drawings..and how will you present your information?

Mathematics

Power Maths

Shape and space

Numbers to 100

Science

Let's hope for good kite flying weather! We will be observing changes across the seasons this half term. Our summer season is perfect flying weather...little fluffy clouds and a breezy day! By marking changes in the weather, looking at how length of day varies between the seasons and discussing and finding ways to record these changes we will definitely be....Up,Up and Away!

Year 1 – Summer Term 1

Up up and away!

Enrichment

- Park Hall Hills
- Manchester airport trip

Computing

Fasten your seatbelts! Let's research to find some interesting Flight facts and all about Air transport through time from the past and through to the future! Now it's time for iPads at the ready! Let's get creative to bring our Flight and air travel learning alive! From recording ; research to digital artwork.....

Design Technology

Lets go fly a kite! Starting from scratch we will design, make and fly our very own kites. Using our knowledge of materials we will see who can make the best kite in flight! We will further progress our design skills by investigating what adaptations we might add to perfect flight. Heres hoping for a windy day!

Physical Education

Summer sun brings our Sports day season. We will be practising our races and working together on field games such as rounders and cricket.

Religious Education

What makes some places sacred?

Geography

Welcome aboard your flight...around The United Kingdom! This time you will be the Captain and show your Geographical skills, identifying and naming the Countries and capital cities of the UK. Don't forget to observe from the window to identify and name features of the landscape you are flying over!

Art and Design

Put your creative caps to explore a wide range of art and design skills to create, using colour, pattern ,design, ,shape and form....from kite designs to airline logos...the sky's the limit!

Music

Pilots and passengers, engineers and ground crew all together let's sing whilst we work! Sing it loud! Sing it proud! It's time to learn, sing, play and perform together! Come aboard our transport of delight...

History

Up up and away in our beautiful balloon! We will learn about the history of flight from the Montgolfier brothers to futuristic space travel. Closer to home lets celebrate our local history with the Spitfire and Reginald Mitchell, another of those Magnificent men in their flying machines!
